Partitions

The GT System provides unparalleled privacy and office experience ideal for modern workplaces and co-working spaces. Its ultra-slim and contemporary glass panels provide the tranquility, privacy and sleekness that employees nowadays seek.

GT takes inspiration from the high performance car, of which has long been the symbol of modernity. Its streamline silhouette, engineering and agility have cultivated our fascination for decades - thus sparked our design ideas.

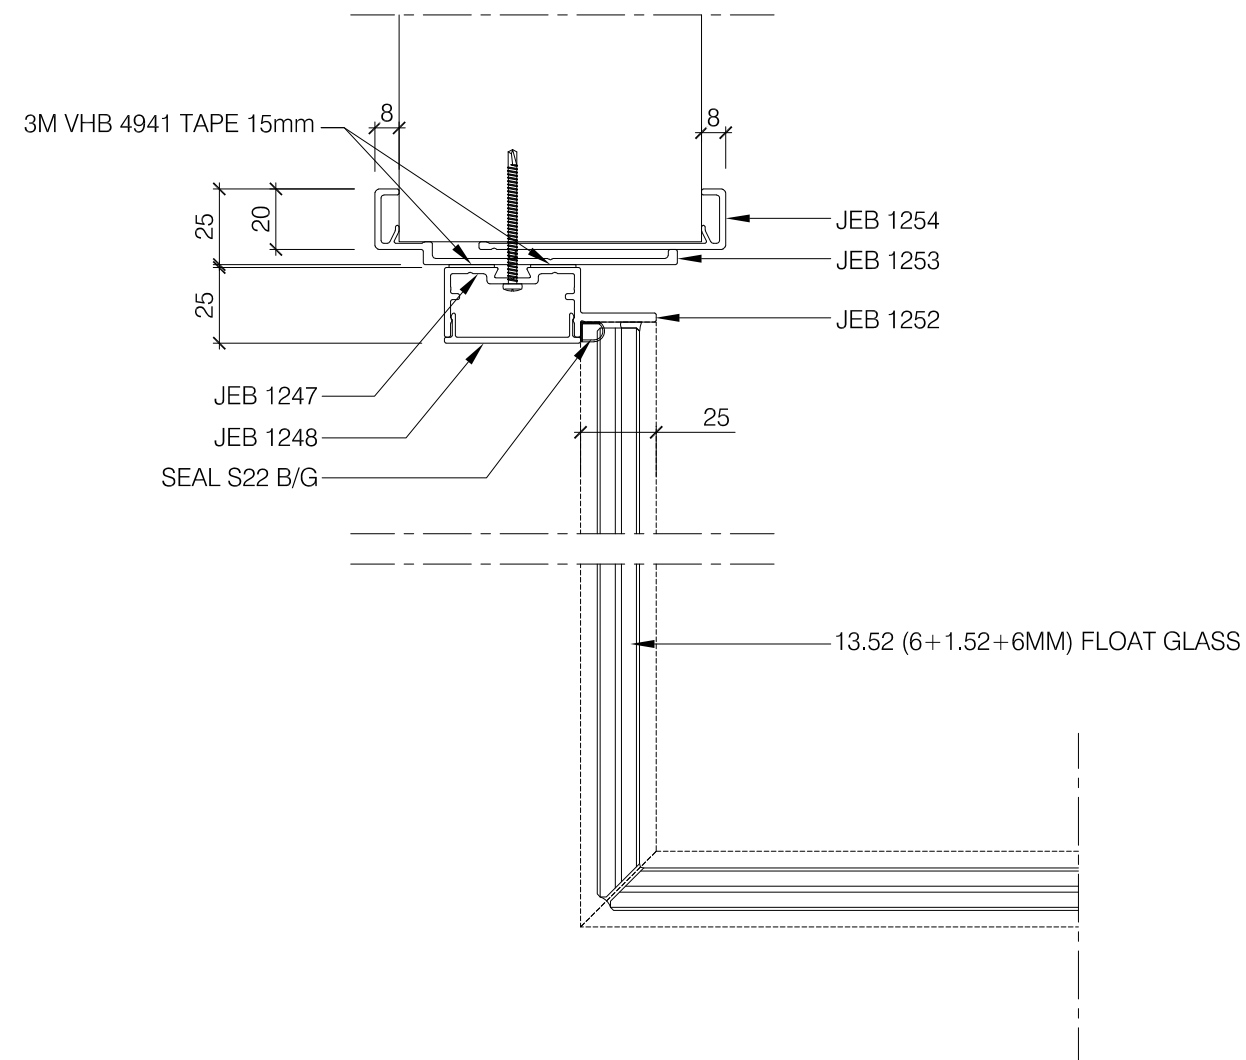

With door hinges specifically designed to resemble those of a high-performance car, acoustic performances have hence taken a great leap like never before. The ground-breaking, ultra-slim glass panels also give a super light and modern atmosphere to any offices, ensuring maximum natural lighting and transparency.

The GT System - a high-performance partition system for a high-performance environment.
