SUMMIT

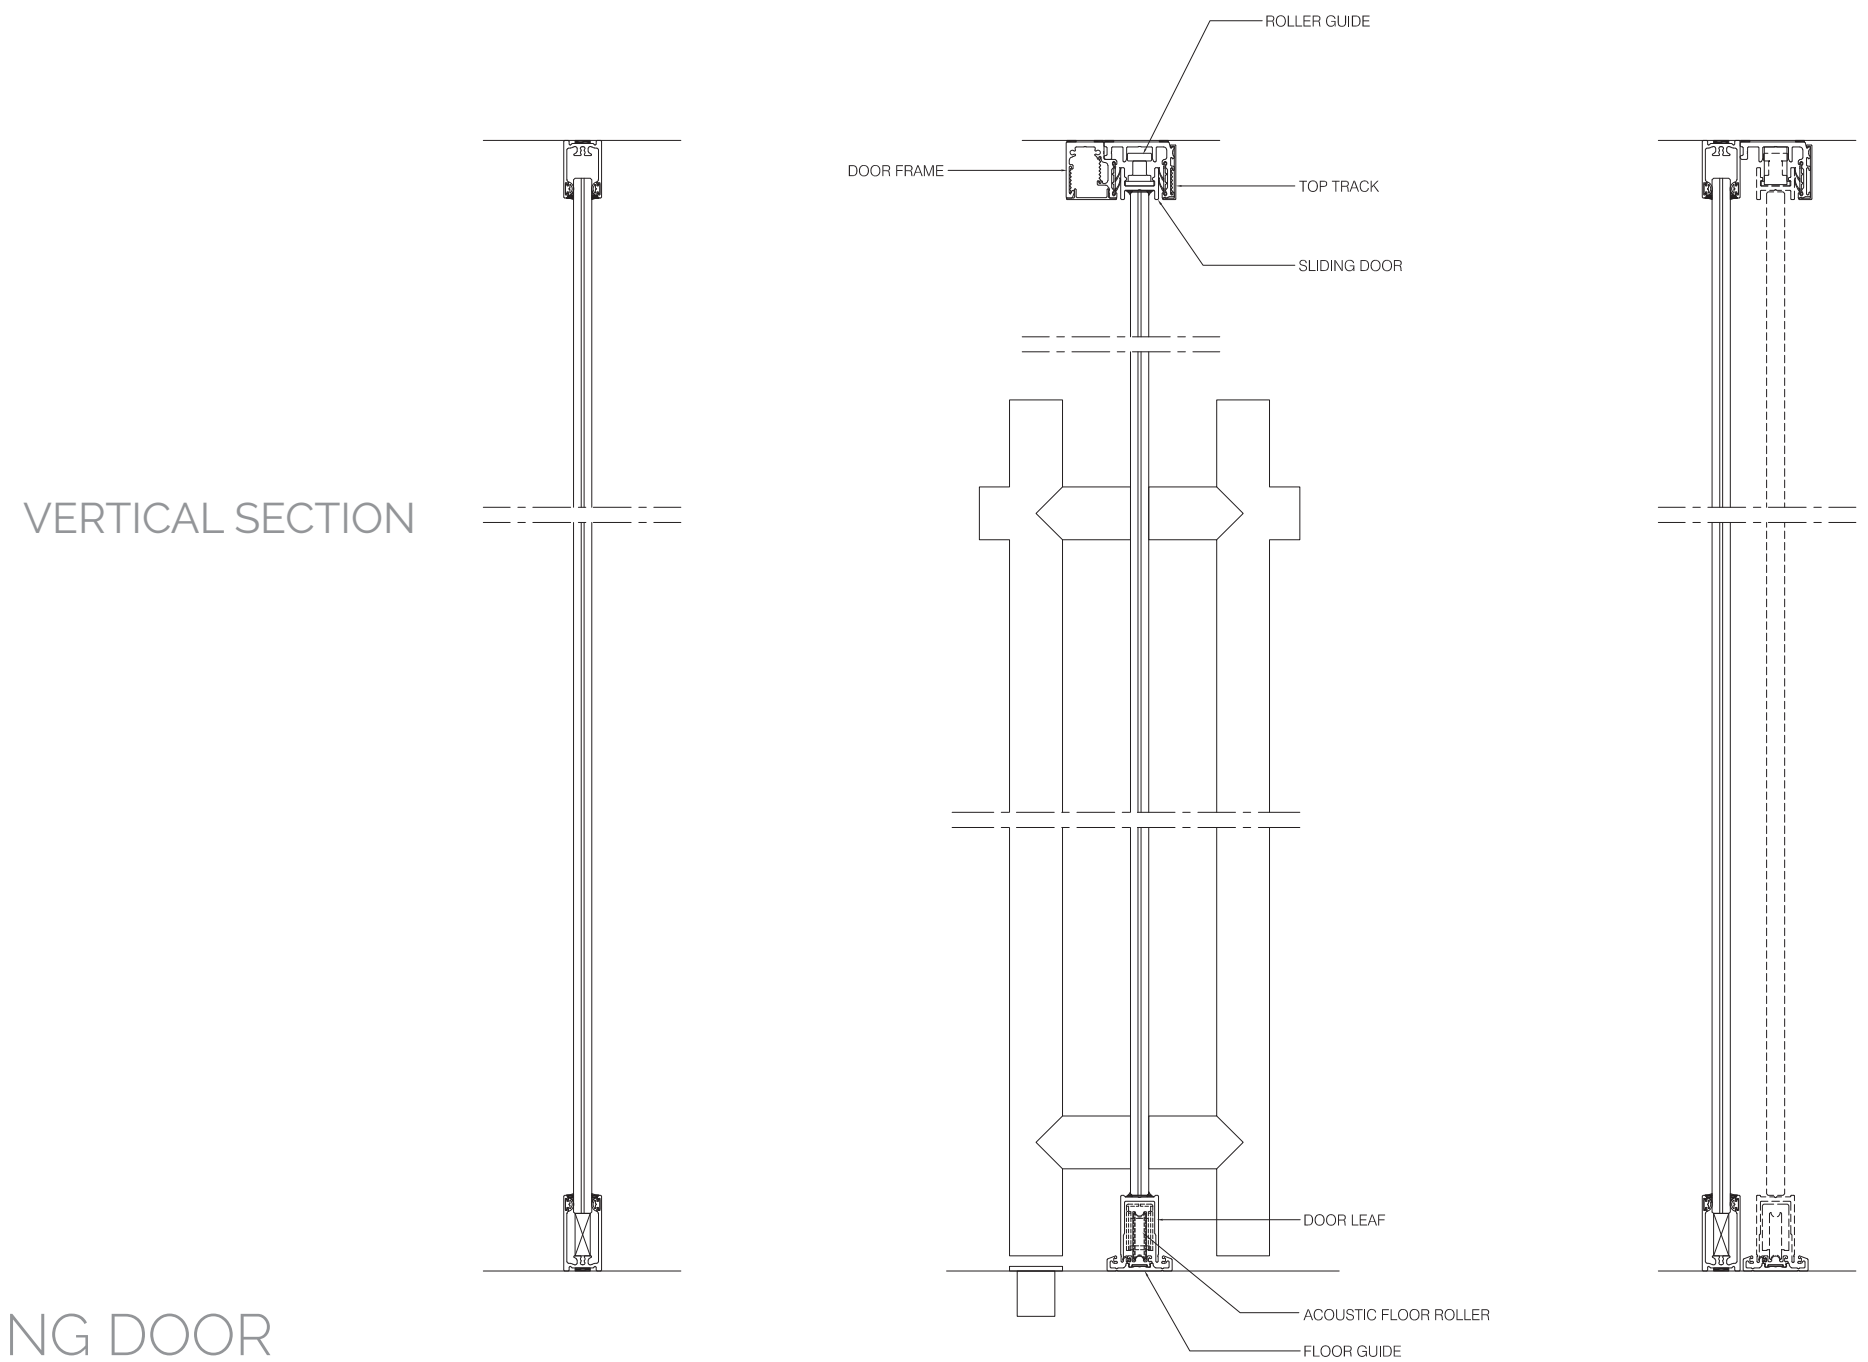

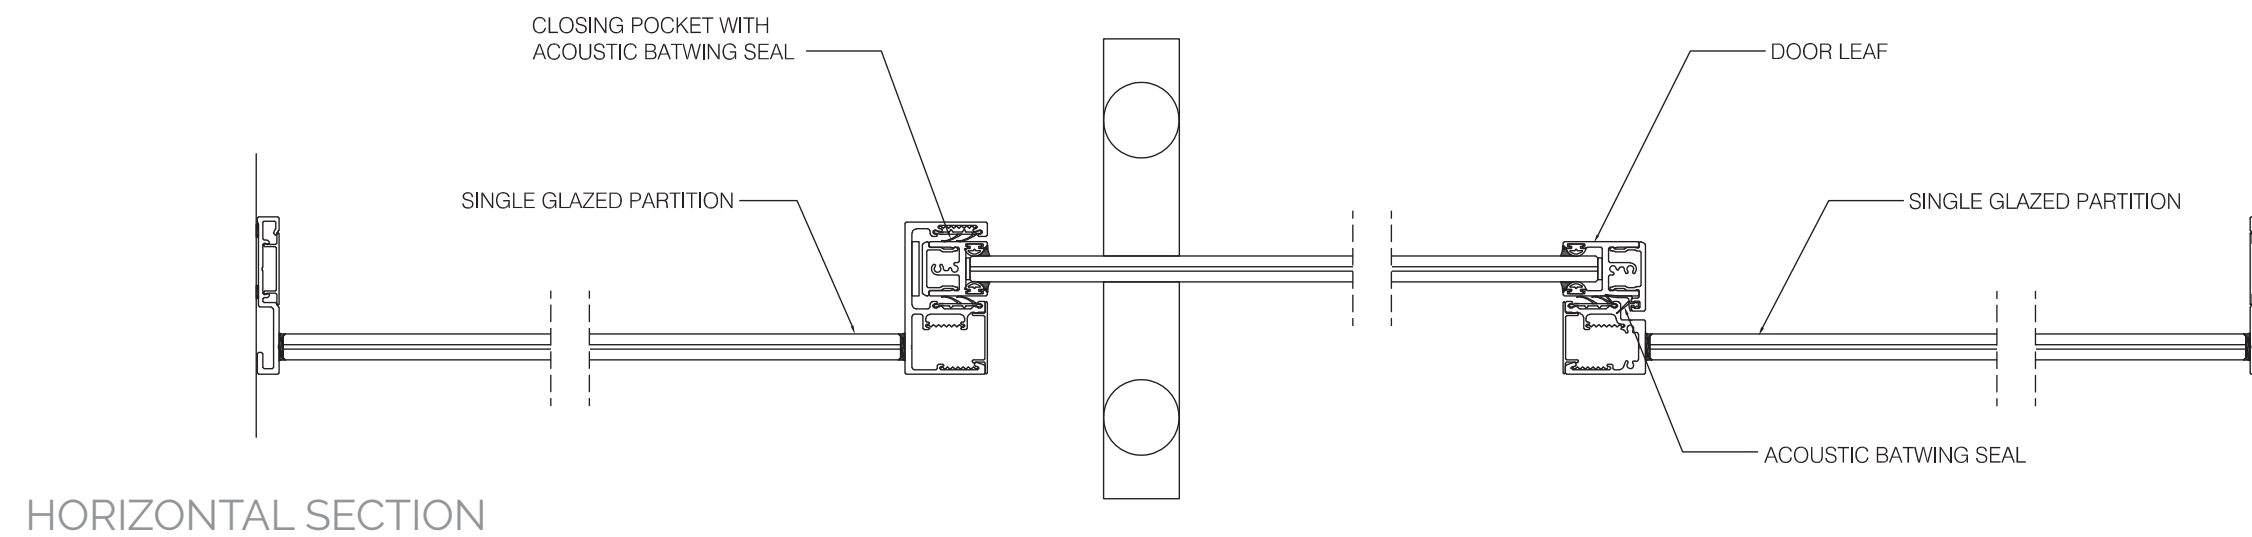

SUMMIT

SUMMIT reflects JEB's pledge to innovation. It features single and double-glazed partitions, slim-frame acoustic sliding doors, with quality guaranteed by ISO-certified laboratory tests. Its minimal extrusions mean even untrained contractors can install the system with ease.

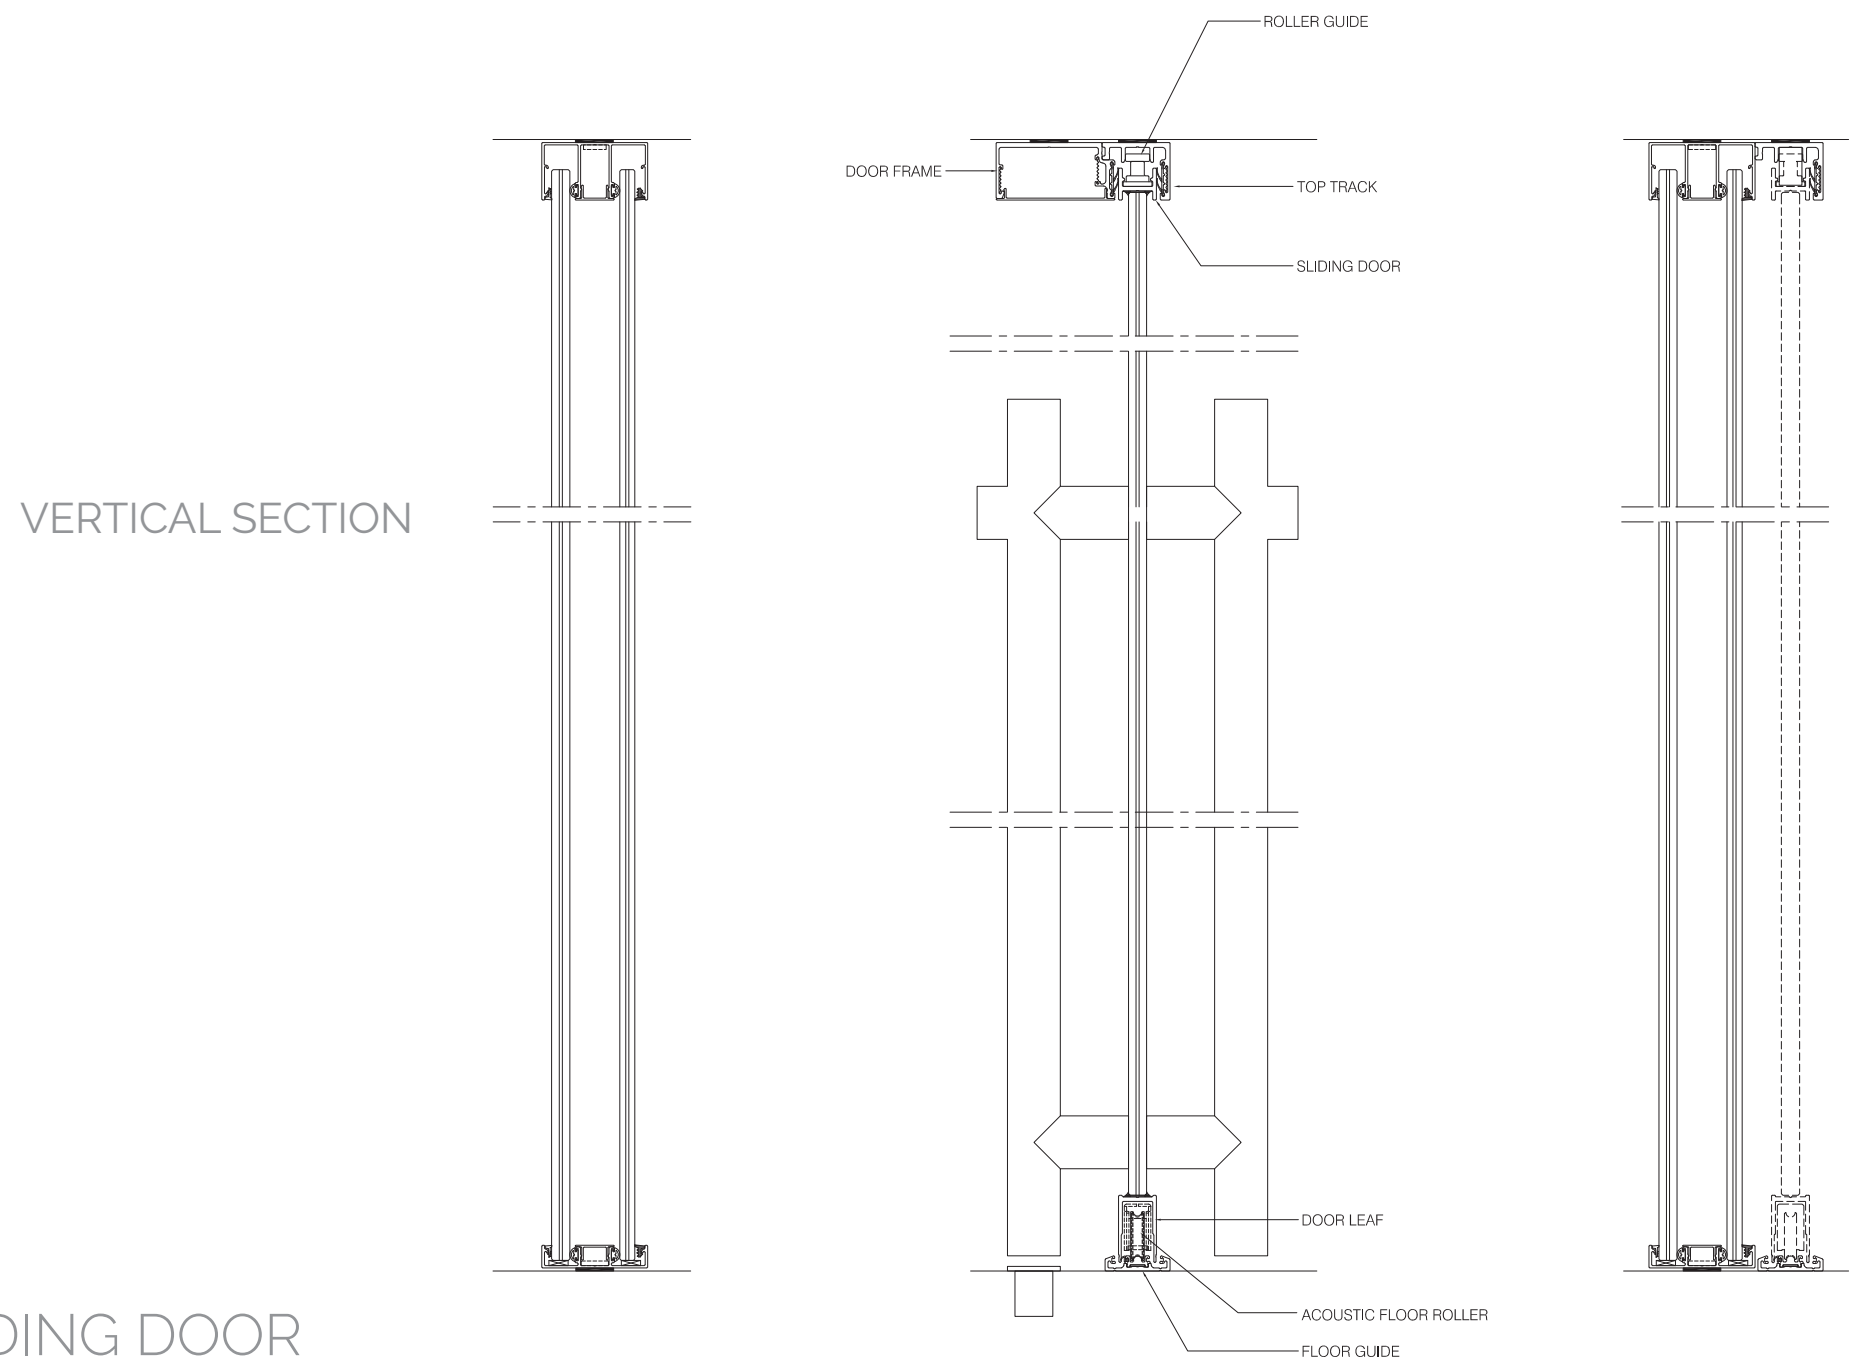

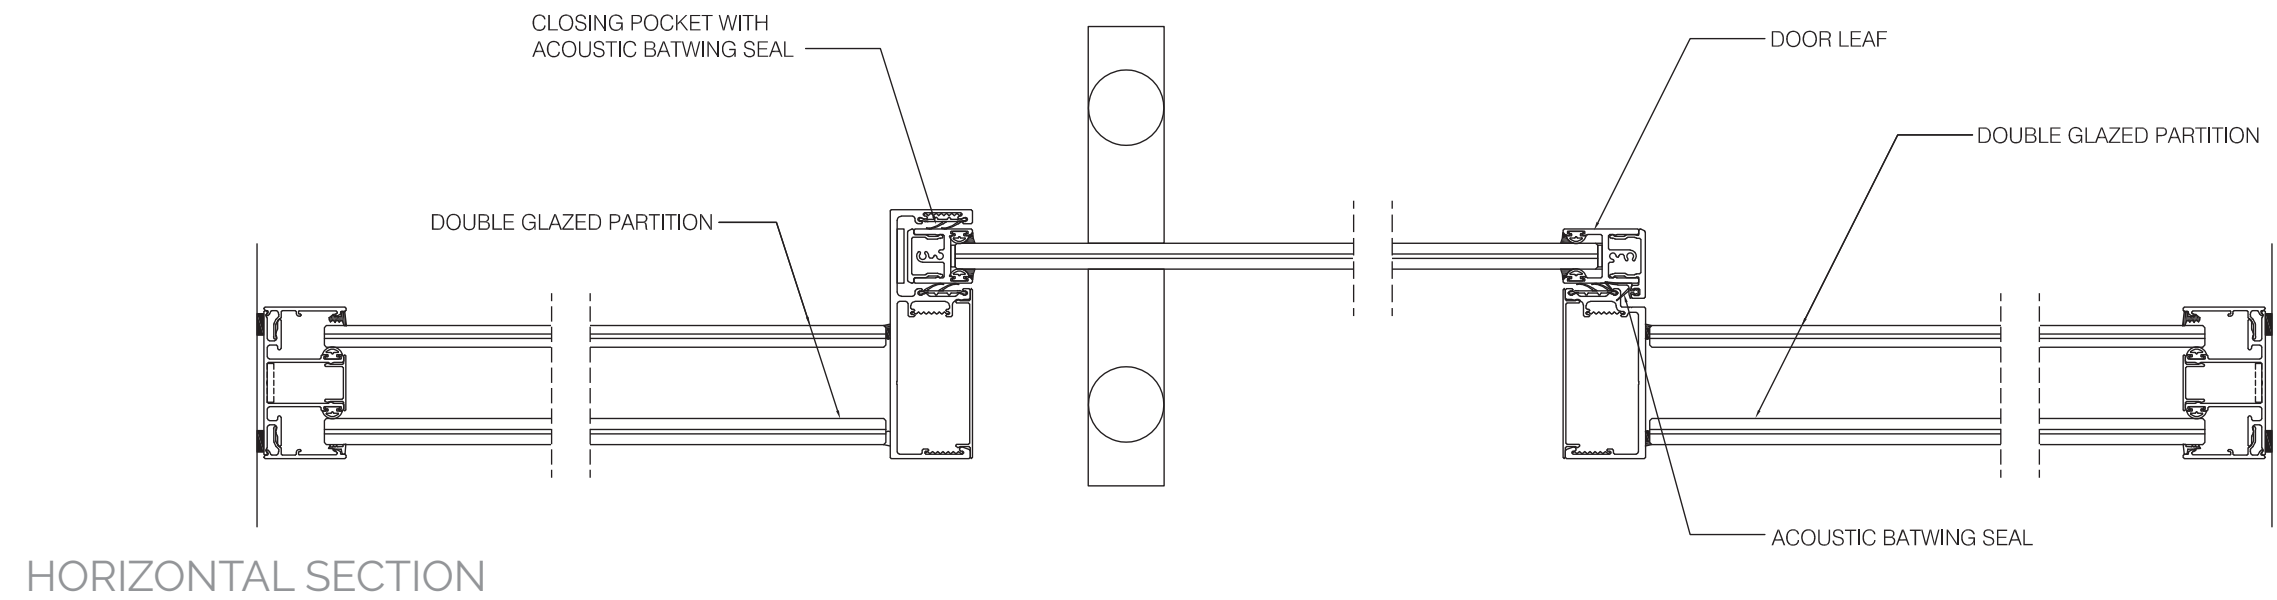

SYSTEM FEATURES

- Flush floor track with adjustable rollers +/- 5mm
- JEB custom acoustic bulb seals
- Field tested to 35STC with 6+6mm laminated glass
- Ultra slim 38mm frames
- Lockable pull handle or custom patch lock
- Overhead structural support eliminated
