SUMMIT Double Glazed Sliding Door

SUMMIT

Double Glazed Sliding Door

Following the successful launch of Summit single glazed sliding door, JEB's team has now designed a double glazed version that offers a higher acoustic performance.

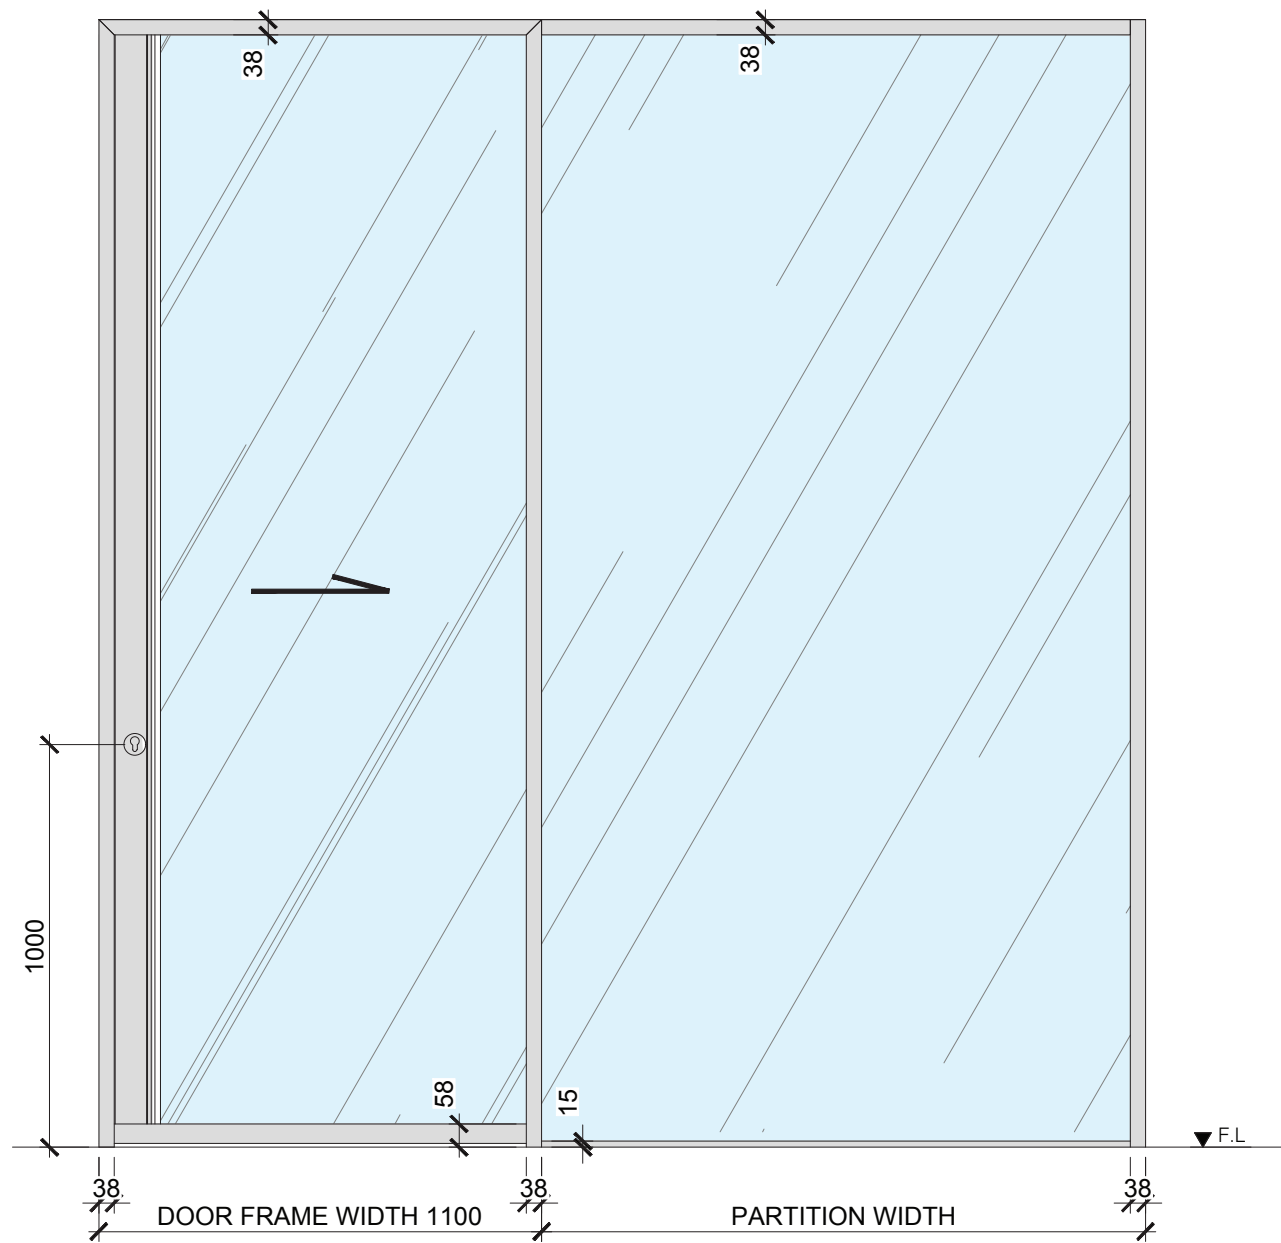

When compared to JEB's previous sliding door designs, the Summit double glazed door delivers the highest STC rating among all. Not only does the system perform brilliantly, it also remains a competitive option for meeting the needs of the modern offices.

The lightweight door profile allows smooth operation for supporting everyday activities of the workplaces.

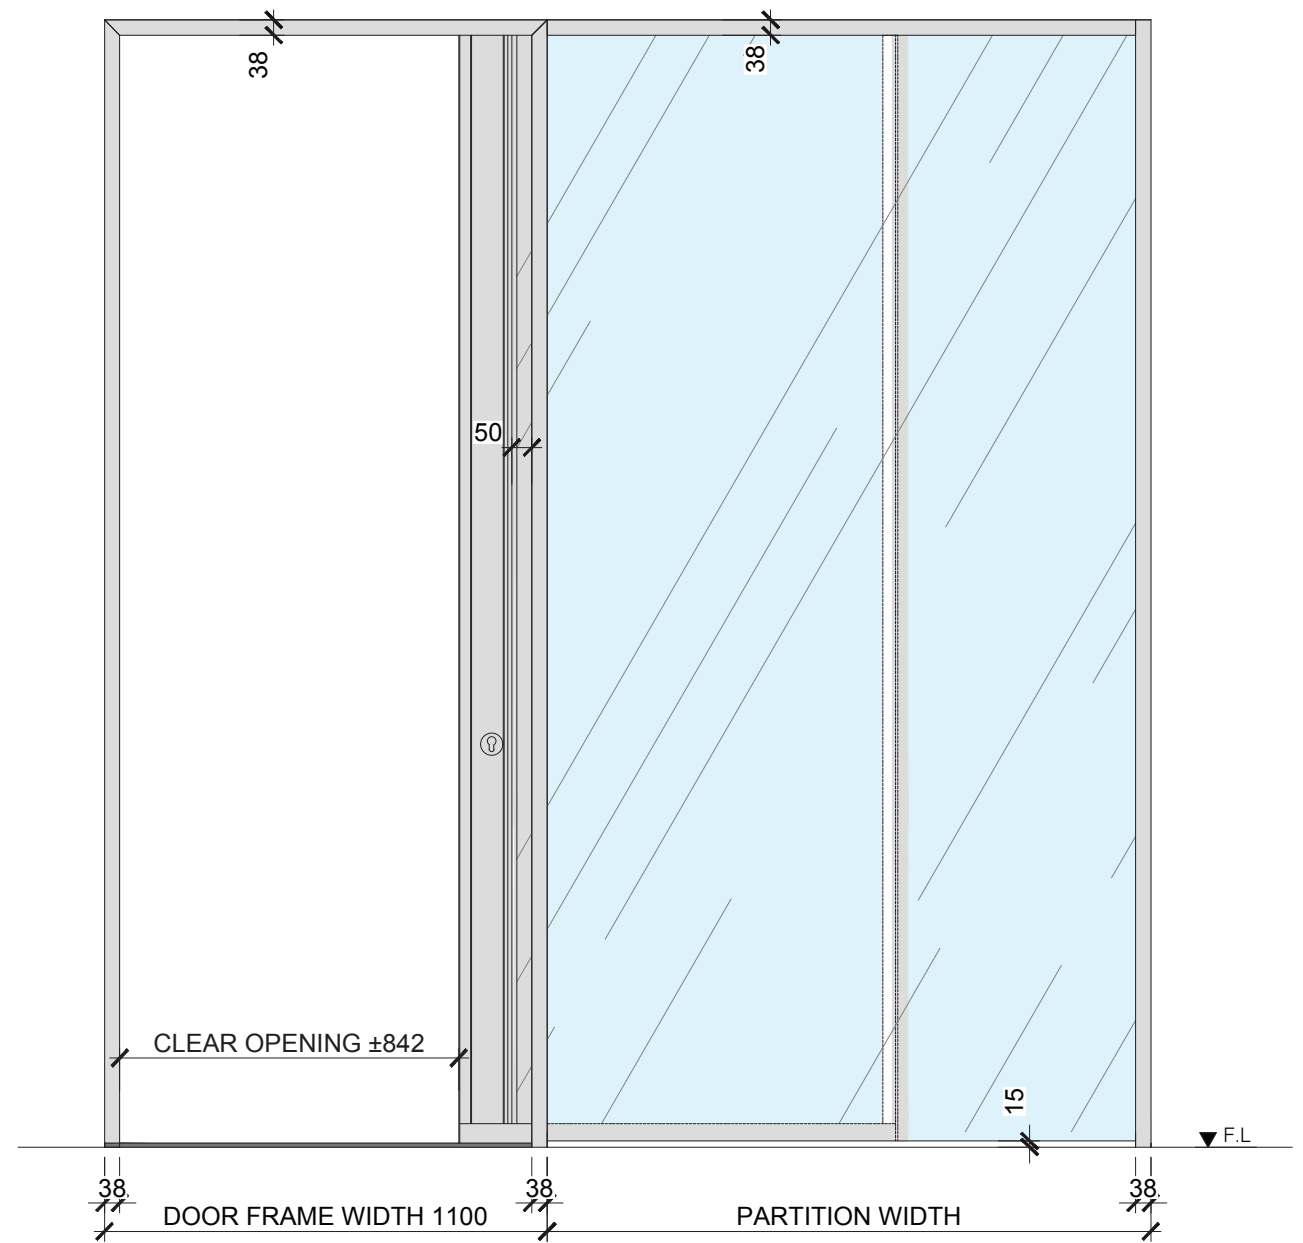

SYSTEM FEATURES

- High acoustic performance (up to STC 37)
- 4-side seals
- Easy installation
- Lightweight
- Smooth operation
- Extruded profile, standard pull handle or customers own handle
- Standard hook lock and ADA/DDA compatible
- Can be paired with JEB's Summit partition system
- Allow colour customisation
