

JEB
Acoustic Partitions

SUMMIT

SUMMIT

SUMMIT reflects JEB's pledge to innovation. It features single and double-glazed partitions, slim-frame acoustic sliding doors, with quality guaranteed by ISO-certified laboratory tests. Its minimal extrusions allow contractors to install the system with ease.

SYSTEM FEATURES

- Flush floor track with adjustable rollers +/- 5mm
- JEB custom acoustic bulb seals
- Ultra slim 38 mm frames
- Lockable pull handle or custom patch lock
- Overhead structural support eliminated
